

Monitoring Success

Over 2,000 community corrections agencies and 4 million offenders have relied on GuardCenter.

Staying Power

Success in the offender monitoring business requires dedicated attention to the specific needs of community corrections agencies. The consequences of underestimating these requirements can directly impact public safety, officer safety, and offender accountability. Having served the needs of these agencies for over two decades, BI understands the complexities of offender monitoring. The proof is in the numbers: More than 2,000 community corrections agencies and 4 million offenders have relied on the accurate and timely information supplied by BI GuardCenter.®

GuardCenter monitoring specialists handle an average of 118,679 calls every month.

GuardCenter, BI's monitoring service center, provides the most reliable, secure, and advanced compliance monitoring system available on the market today. Superior technology and automated response systems are combined with trained and certified staff to provide the highest quality customer service and compliance monitoring that agencies depend on.

Comprehensive Service

BI offers a wide range of monitoring, reentry, and treatment services designed to help criminal justice professionals alleviate jail overcrowding and limit the risk of recidivism by performing effective compliance monitoring of community-based offenders. The continuum of sanctions allows agencies to match the level of supervision to each offender's risk assessment level. BI helps an agency define its supervision and/or treatment objectives and then recommends the best products and services to achieve those goals.

Specialization

For nearly a decade, BI has specialized in community corrections. GuardCenter is no exception. Monitoring Specialists are trained and certified to handle any compliance monitoring scenario. They can quickly and easily handle an average of 118,679 calls each month on topics ranging from complex monitoring issues to equipment troubleshooting. The result: BI's corrections expertise yields more time for officers to focus their efforts on other mission-critical responsibilities. Call to speak with a local BI Business Development Representative who will demonstrate how BI's technology and service can enhance new or existing EM programs.

- **Calls are answered within a average 5.8 Seconds.**
- **Each month, GuardCenter helps agencies monitor more than 30,000 offenders.**
- **GuardCenter has an average alert notification time less than 4 minutes.**

Quality Standards

Because reliability and security are cornerstones of quality monitoring services, GuardCenter provides consistent, uninterrupted customer support and protection of critical offender data. GuardCenter personnel are rigorously trained and regularly re-certified on all systems and procedures. Our record speaks for itself. GuardCenter quickly responds to alerts and notifies officers within an average of less than four following the grace window set up for event pairing, automatic correction, or explanation from the offender. And, an average of 97 percent of inbound calls to GuardCenter are answered in less than 6 seconds.

monitor more than 30,000 offenders. BI's customer service team understands the intricacies of compliance monitoring, enabling them to quickly respond to agency inquiries. BI's business development representatives provide agencies with a single point of contact for service, program support, as well as customized, on-site training. Additionally, BI implemented a self-pay system to collect funds directly from offenders and defendants, thereby relieving agencies of the administrative burden associated with offender collections, processing, and reporting.

BI understands and respects the enormous responsibility and public trust placed in agencies managing community corrections programs. That is why BI is continually improving and expanding our suite of comprehensive technologies and services based on evolving agency needs and emerging technology. BI's commitment to our customers and to the communities they serve assures corporate stability, expanded alternative sanctions, corrections-focused service, and the highest standards of quality and program support.
